

Name: _____

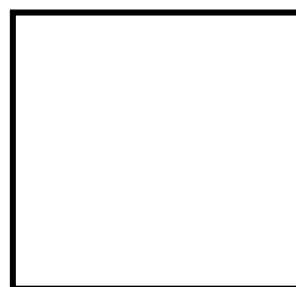

Squares and Rectangles

Draw lines to make

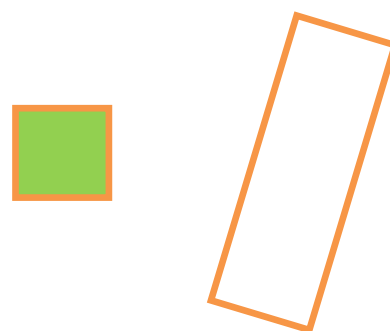

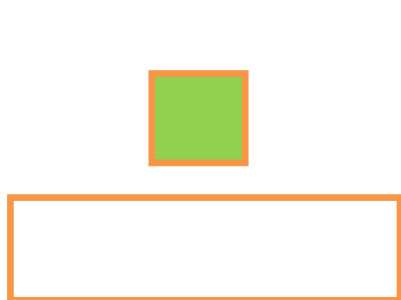

4 squares

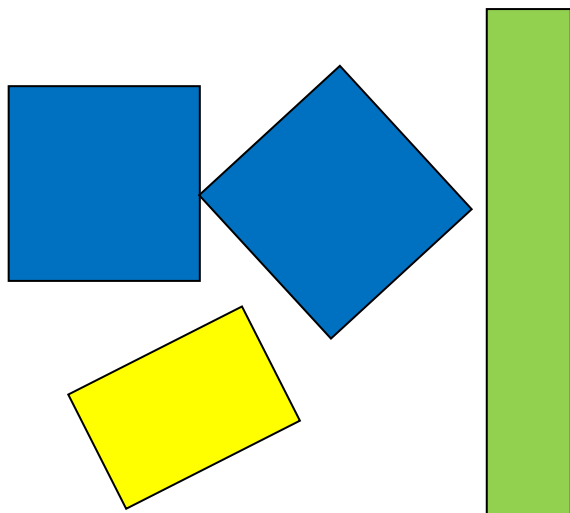

2 rectangles

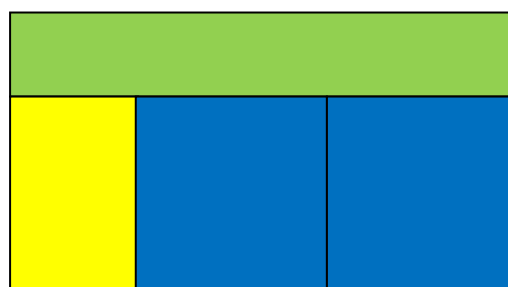

How many squares will fit the rectangle?

Make a rectangle using these squares and rectangles.

ANSWER

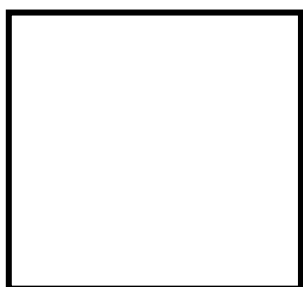

Name: _____

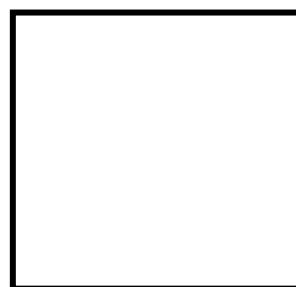

Squares and Rectangles

Draw lines to make

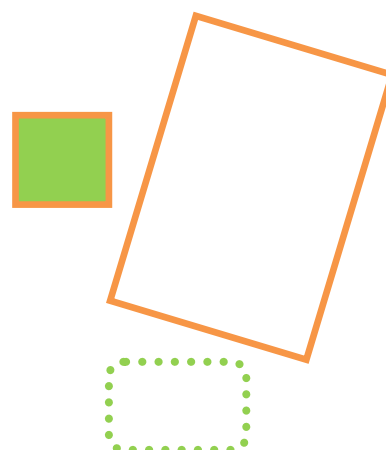

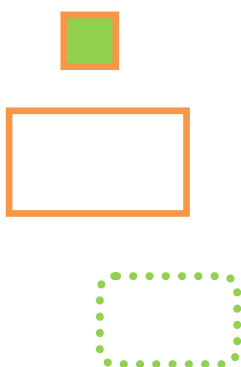

3 rectangles

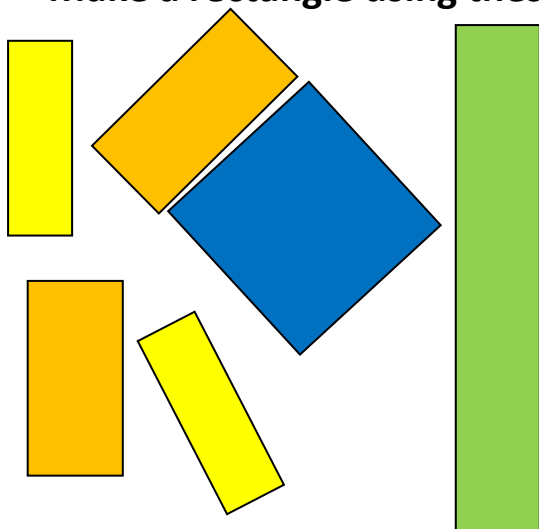

4 rectangles

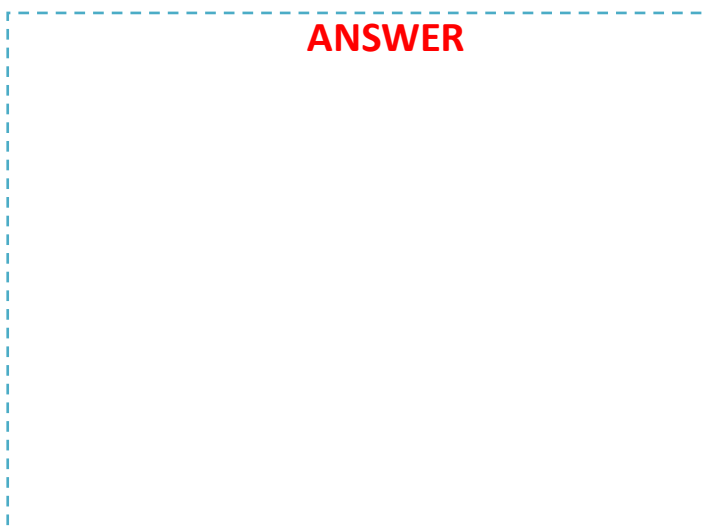

How many squares will fit the rectangle?

Make a rectangle using these squares and rectangles.

ANSWER

Name: _____

Squares and Rectangles

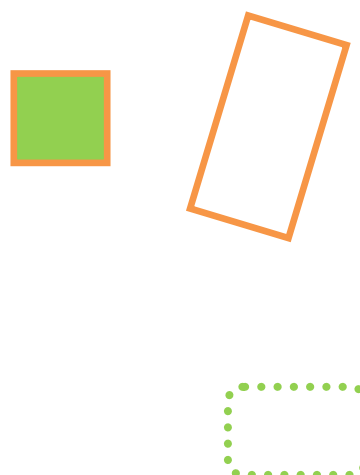

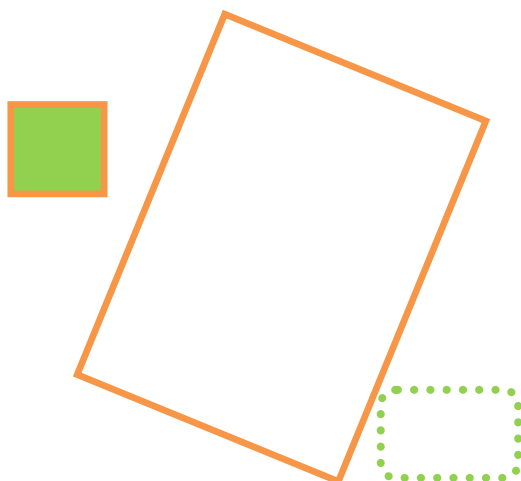

**Draw lines to make
4 rectangles**

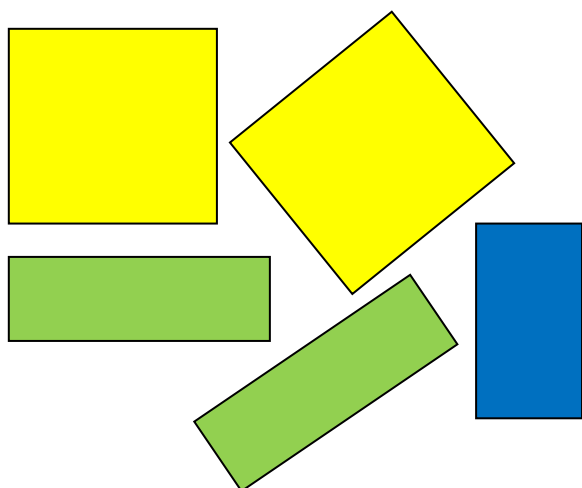

2 squares

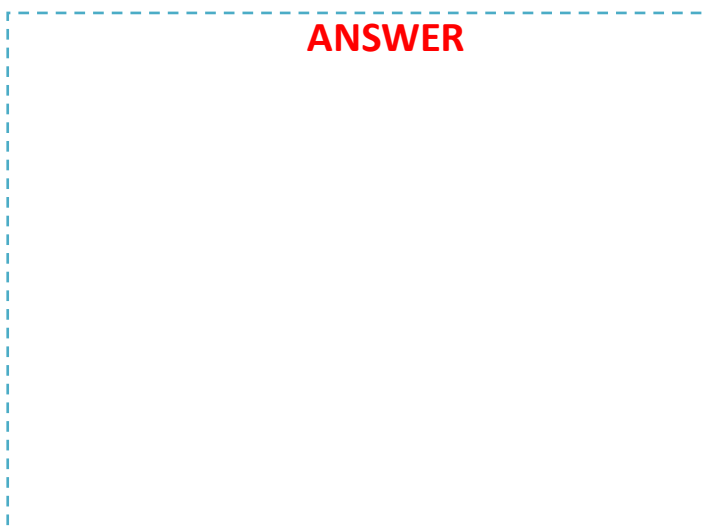

How many squares will fit the rectangle?

Make a rectangle using these squares and rectangles.

ANSWER

Name: _____

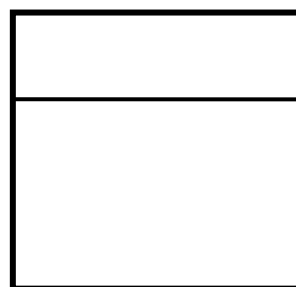

Squares and Rectangles

Draw lines to make

2 squares 1 rectangle

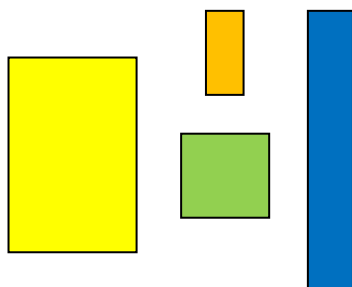

2 rectangles 1 square

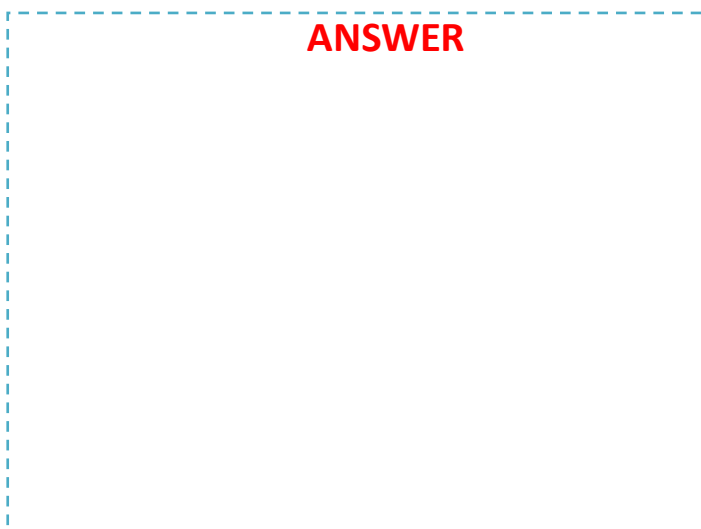

How many green squares will fit the orange square?

Make a rectangle using these squares and rectangles.

ANSWER

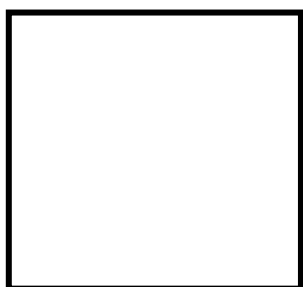

Name: _____

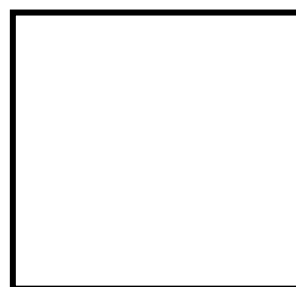

Squares and Rectangles

Draw lines to make

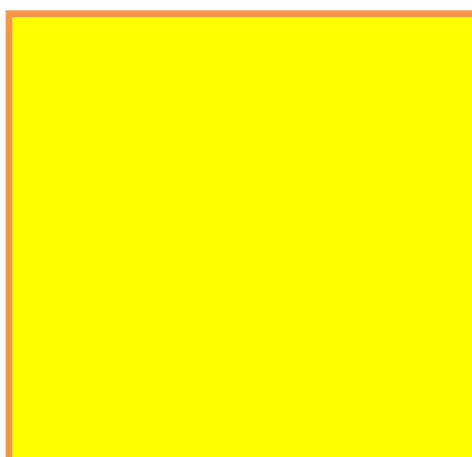

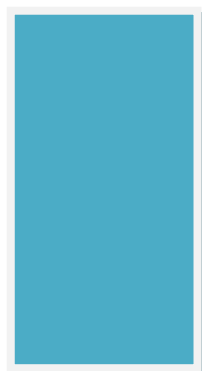

3 squares, 2 rectangles

3 large and 4 small squares

How many green squares and blue rectangle will fit the yellow square?

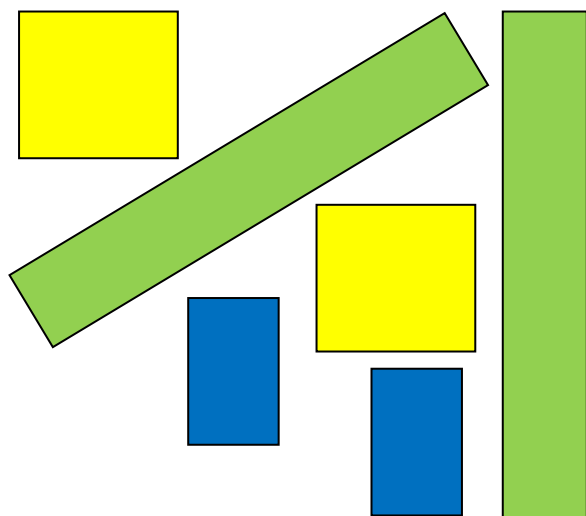

squares

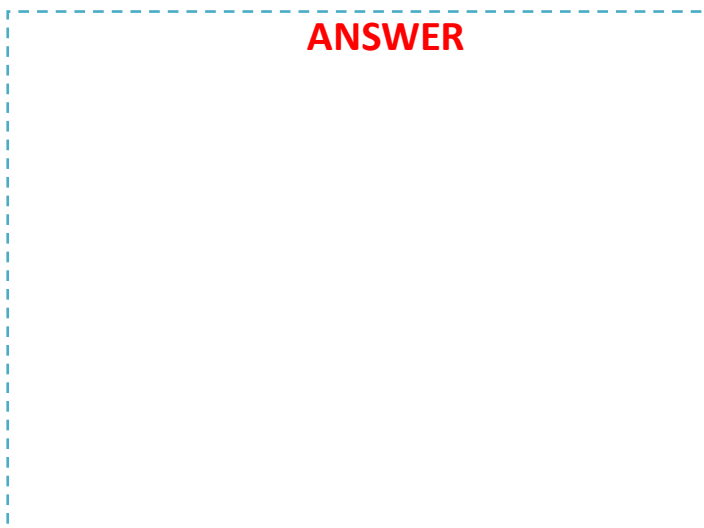

rectangles

Make a rectangle using these squares and rectangles.

ANSWER

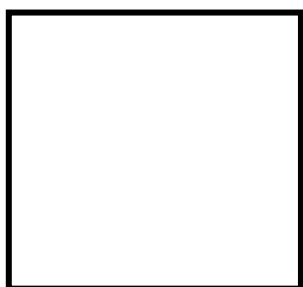

Name: _____

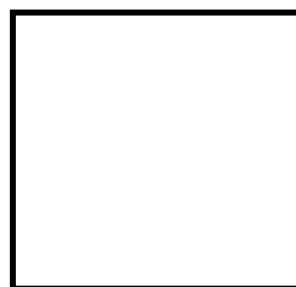

Squares and Rectangles

Draw lines to make

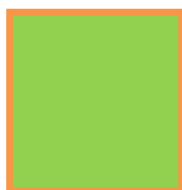

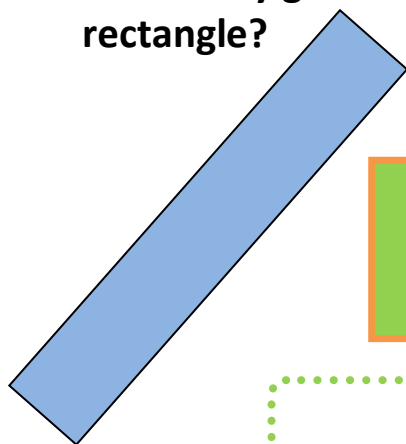

8 small and 2 large squares

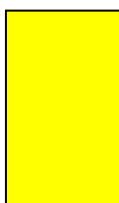

12 small and 1 large square

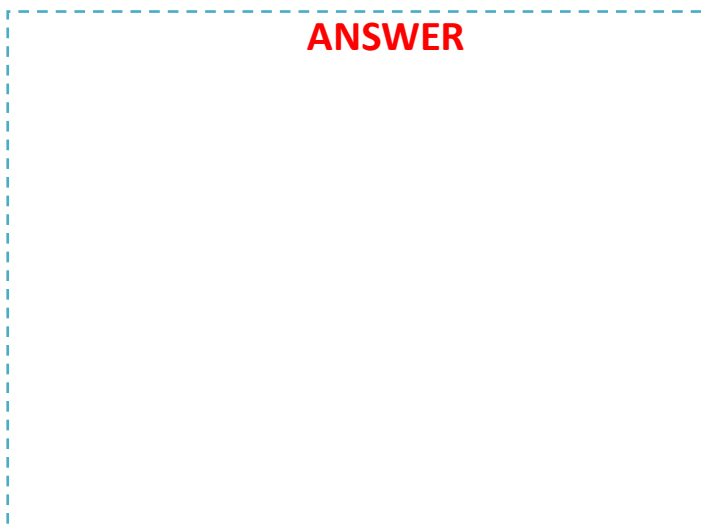

How many green squares and blue rectangle will fit the yellow rectangle?

Make a square using these rectangles.

ANSWER

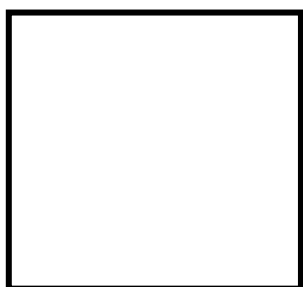

Name: _____

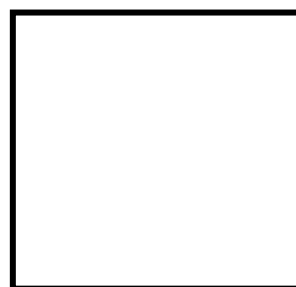

Squares and Rectangles

Draw lines to make

16 squares

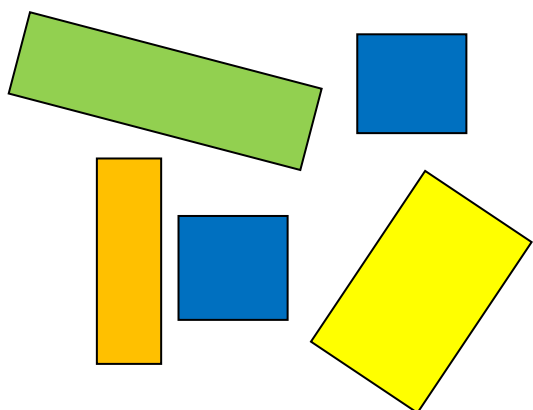

2 rectangles 2 squares

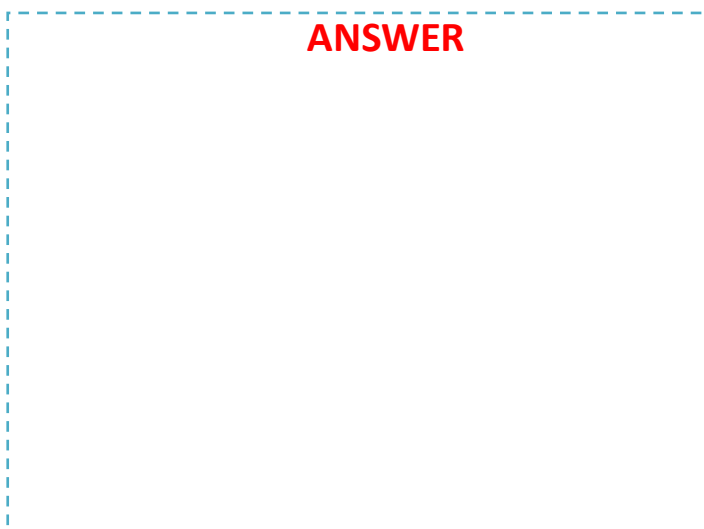

How many green rectangles will fit the orange rectangle?

Make a square using these squares and rectangles.

ANSWER

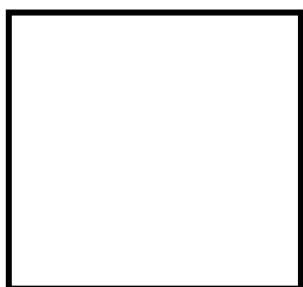

Name: _____

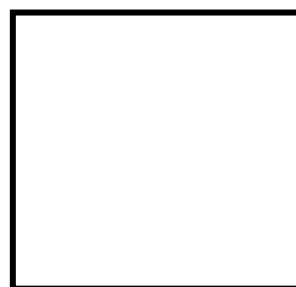

Squares and Rectangles

Draw lines to make

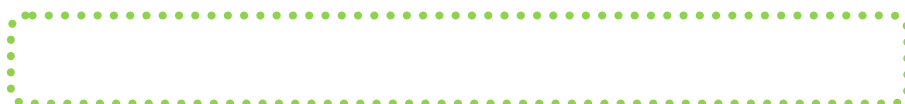

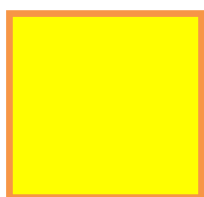

3 rectangles, 4 squares

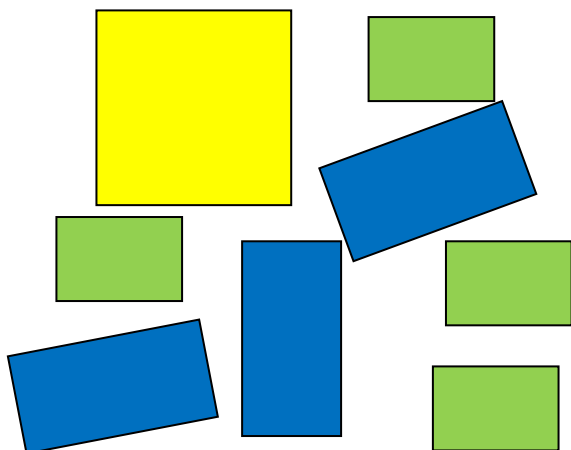

6 rectangles, 4 squares

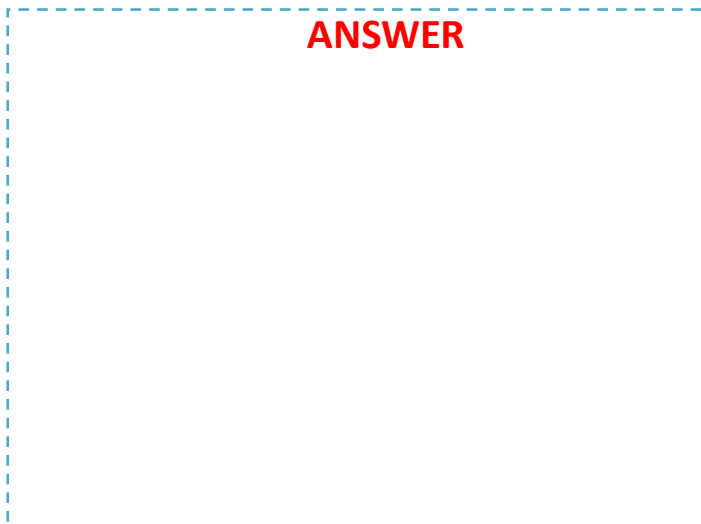

How many yellow squares and green squares together will fit the rectangle?

Make a rectangle using these squares and rectangles.

ANSWER

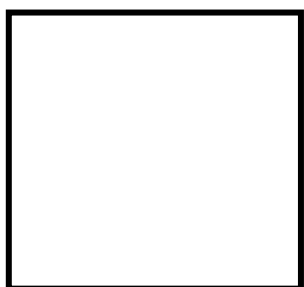

Name: _____

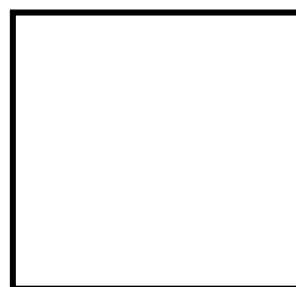

Squares and Rectangles

Draw lines to make

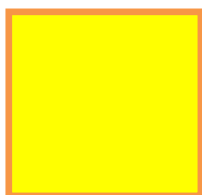

4 rectangles, 8 squares

2 rectangles, 8 squares

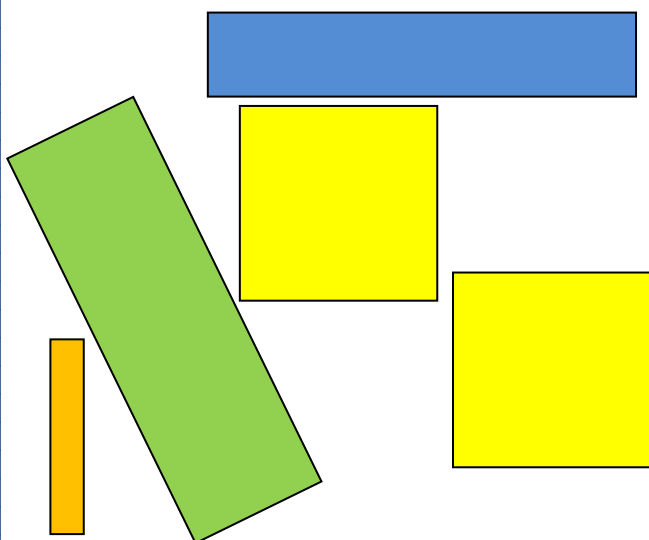

How many yellow squares and green rectangles together will fit the rectangle?

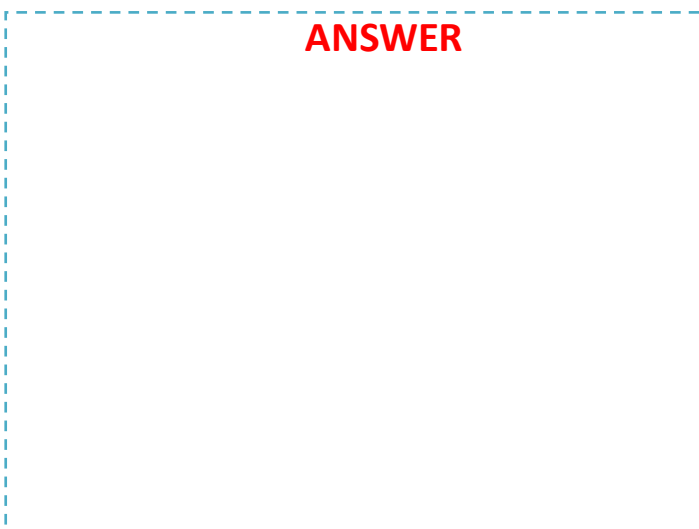

or

Make a rectangle using these squares and rectangles.

ANSWER

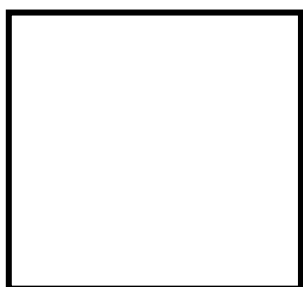

Name: _____

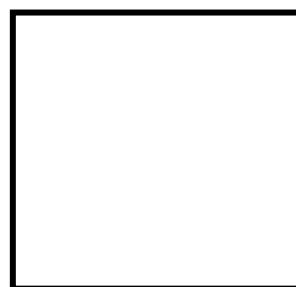

Squares and Rectangles

Draw lines to make

2 rectangles, 12 squares

1 rectangles, 12 squares

How many yellow rectangles and green rectangles together will fit the square?

Make a square using these squares.

ANSWER
