Danya moves to a new house

Danya's parents have bought a new house. Danya is too excited to move to her new house as she knew that several kids of her age live nearby.

Danya and her mother fill up big boxes with their clothes, books and all other items in the house. Next, her father

calls for a van and the van driver loads all those boxes into the van. Inside the van also go their furniture.

"This van is so big", exclaims Danya. At their new house, they unload the van and unpack all the boxes. Danya arranges her books and toys in her bedroom. Her mother sets the kitchen cabinets. Her father applies wall paper on the walls.

In a week's time, Danya had made friends with all the kids in the neighborhood. She was enjoying there more than she was at her old home.
