

A) Find the answer & write the division equation for the following problems.

1. 20 pencils divided into 2 equal groups.

$$\boxed{20} \div \boxed{2} = \boxed{10}$$

2. 35 pencils divided into 7 equal groups.

$$\boxed{} \div \boxed{} = \boxed{}$$

3. 64 pencils divided into 8 equal groups.

$$\boxed{} \div \boxed{} = \boxed{}$$

4. 12 pencils divided into 2 equal groups.

$$\boxed{} \div \boxed{} = \boxed{}$$

5. 50 pencils divided into 10 equal groups.

$$\boxed{} \div \boxed{} = \boxed{}$$

B) Solve the division problems.

1. How many groups of 5 in 20? \Rightarrow

$$20 \div 5 = \underline{4}$$

2. How many groups of 5 in 25? \Rightarrow

$$25 \div 5 = \underline{}$$

3. How many groups of 2 in 18? \Rightarrow

$$18 \div 2 = \underline{}$$

4. How many groups of 11 in 22? \Rightarrow

$$22 \div 11 = \underline{}$$

ANSWERS

WORKSHEET#9

A. 1) $20 \div 2 = 10$

2) $35 \div 7 = 5$

3) $64 \div 8 = 8$

4) $12 \div 2 = 6$

5) $50 \div 10 = 5$

B. 1) 4

2) 5

3) 9

4) 2

(same number in both the blanks)
