

Solve the following division problems by circling the sets of items.

1. How many groups of 6 can you make with 36 stars?

→ \_\_\_\_\_ groups

Division equation:

2. How many groups of 4 can you make with 16 balls?

→ \_\_\_\_\_ groups

Division equation:

3. How many groups of 3 can you make with 9 diamonds?

→ \_\_\_\_\_ groups

Division equation:

4. How many groups of 2 can you make with 12 hearts?

→ \_\_\_\_\_ groups

Division equation:

## ANSWERS

### WORKSHEET#1

1. 6 ;  $36 \div 6 = 6$

2. 6 ;  $16 \div 4 = 4$

3. 3 ;  $9 \div 3 = 3$

4. 6 ;  $12 \div 2 = 6$
