Solve the following division problems.

1. Divide $\mathbf{2 0}$ stars in $\mathbf{4}$ groups.

Each group has 5 stars.
Division equation: $20 \div 4=5$

3. Divide $\mathbf{3 0}$ stars in $\mathbf{2}$ groups.

Each group has $\square$ stars.
Division equation :

5. Divide 10 stars in $\mathbf{2}$ groups.

Each group has $\square$ stars.
Division equation :

2. Divide 39 balls in 3 groups. Each group has $\square$ stars.

Division equation : $\qquad$

4. Divide 45 balls in 5 groups.

Division equation : $\qquad$

6. Divide 36 balls in $\mathbf{4}$ groups.

Each group has $\square$ stars.
Division equation :
