**WORKSHEET#7**

HELP THE BALL JUMP FORWARD AND BACKWARD!

1. A wheel is at the number 24000 on the number line. How many jumps will it take to reach the number 24003?

| 23999 | 24000 | 24001 | 24002 | 24003 | 24004 | 24005 | 24006 | 24007 |

2. The wheel kept rolling and stopped at number 24024 on the number line. How many more jumps will it make to reach 24026?

Make the arrows to show the jumps.

| 24020 | 24021 | 24022 | 24023 | 24024 | 24025 | 24026 | 24027 | 24028 |

3. After getting to the number 24026, it wants to go back to 24021. How many jumps will it take backwards to get there? Make the arrows to show the jumps.

| 24021 | 24022 | 24023 | 24024 | 24025 | 24026 | 24027 | 24028 | 24029 |
