

Color the portions of figures to show the equivalent fractions.

1

$$\frac{3}{6} = \frac{1}{2}$$

2

$$\frac{2}{3} = \frac{4}{6}$$

3

$$\frac{2}{4} = \frac{1}{2}$$

4

$$\frac{2}{2} = \frac{4}{4}$$

5

$$\frac{3}{3} = \frac{1}{1}$$

## ANSWERS

### WORKSHEET#2

- 1) color any 3 parts of the fig1 out of 6 and color 1 part of the fig2 out of 2
- 2) color any 2 parts of the fig1 out of 3 and color 4 parts of the fig2 out of 4
- 3) color any 2 parts of the fig1 out of 4 and color 1 part of the fig2 out of 2
- 4) color all the parts of both the figures
- 5) color all the parts of both the figures
