Multiplication

Multiplication means to add a number to its self to certain number of times or adding a number repeated number of times.

Sign used to show multiplication between numbers is "$\times$"

Example 1:

$2 \times 3 =$ 6

Read aloud:

2 multiplied by 3 times.

What it means???

Let's see

See 2 stars are added 3 times which makes 6

Example 2:

$5 \times 4 =$ 20

Now let's solve it:

5 is added 4 times

= 20
