

CALENDARS

(DATES & DAYS ON CALENDAR)

A **calendar** is a table that shows days, dates, weeks and months in a particular year.

There are 12 months and 365 days in a year and 30 or 31 days in each month.

Each month is divided in weeks. There are 7 days in a week.

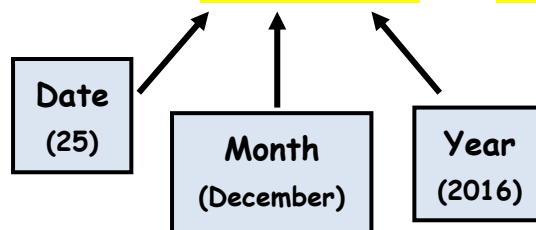

The dates of the months are normally written in a special format.

Date/month/year

For example:

25th December 2016 is written as **25/12/2016** OR **25.12.2016**

Each date comes at a specific day of the week.

The day on 25th December 2016 is **Sunday**. (looking at the calendar of 2016)

Seven days of the week are:

Monday

Tuesday

Wednesday

Thursday

Friday

Saturday

Sunday
