

# MONEY

## 'Dollars And Cents Facts'

We count money in terms of **dollars and cents**.

A dollar is worth **100 pennies**.

(1 Penny coin is equal to 1 cent)

A dollar is worth **20 nickels**.

(1 Nickel coin is equal to 5 cents.)

A dollar is worth **10 dimes**.

(1 Dime coin is equal to 10 cents.)

A dollar is worth **4 quarters**.

(1 Quarter coin is equal to 25 cents.)

A dollar is worth **2 half-dollars**.

(1 Half-Dollar is equal to 50 cents.)

When we write **\$ 56.76**

Dollars

Cents

So this is read as '56 dollars and 76 cents'.

The dollars and cents are separated by a **dot**.
