

## Pictographs WORKSHEET#2

The pictograph below shows the number of cartons of milk sold during the first six months of the year?

| January                                                                                                                                                               |  |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|
| February                                                                                                                                                              |  |
| March                                                                                                                                                                 |  |
| April                                                                                                                                                                 |  |
| May                                                                                                                                                                   |  |
| June                                                                                                                                                                  |  |
| Key: represents 10 cartons  Answer the following questions.  1) How many cartons of milk were sold in February?  2) During which months 40 cartons of milk were sold? |  |
| 3) Is April the month in which least number of cartons were sold?                                                                                                     |  |
| 4) During which month the maximum numbers of cartons were sold?                                                                                                       |  |
| 5) How many cartons of milk were sold in the month of June?                                                                                                           |  |

## **ANSWERS**

- 1) 60
- 2) January and March
- 3) No
- 4) February
- 5) 20
