

Word Problems
WORKSHEET#1

Answer the following questions.

In the library, there are total of 1 305 573 books. 874 850 of the books are fictions and 324 540 are reference books. The rest of the books are non-fiction books.

1. How many non-fiction books are there in the library?
2. In September, 402 900 books were borrowed. Compare with September, 105 219 more books were borrowed in August. How many books were borrowed in August?
3. The computer system showed that a quarter of the books borrowed in September were returned late. How many books were returned late in September?
4. The librarians checked the reference books and found that 5% of them are too old and need to be replaced. How many books are needed after a librarian ordered 7 230 reference books?
5. All the fictions are shelved on 25 aisles of shelves. How many fictions are in each aisle?

ANSWERS

- 1) 106 183 books
- 2) 508 119 books
- 3) 100 725 books
- 4) 8 997 books
- 5) 34 994 books
