

## ADDITION

'Addition of 3 digit numbers with more than 2 addends'

Addition of 3 digit numbers with more than two addends is same as adding any two of 3-digit numbers.

We start adding from the units and do regrouping where ever required.

Look at the following example to understand completely.

**Example:** Solve

$$\begin{array}{r} 568 \\ 233 \\ + 125 \\ \hline \end{array}$$

**Solution:**

$$\begin{array}{r} 11 \\ 568 \\ 133 \\ + 125 \\ \hline \boxed{826} \end{array}$$

Similarly, we can also solve if we have 4 or 5 addends.
