# DIVISION

## 'Dividing 2 digit numbers & 3 digit numbers'
### (without remainders)

We have already learned division in a lot of detail.

Look at the following example to quickly recall the division of a smaller number without remainder.

**Example:** **Divide!**

$$
\begin{array}{r}
8\ 3 \\
7\ \overline{)\ 5\ 8\ 1\ } \\
5\ 6 \\
\overline{\phantom{5}2\ 1} \\
2\ 1 \\
\overline{\phantom{5}0}
\end{array}
$$

**So, 581 ÷ 7 = 83**
