

Determine if the following fractions are proper or improper.

1. $\frac{23}{50}$

- Proper fraction
- Improper Fraction

2. $\frac{100}{101}$

- Proper fraction
- Improper Fraction

3. $\frac{8}{35}$

- Proper fraction
- Improper Fraction

4. $\frac{72}{21}$

- Proper fraction
- Improper Fraction

5. $\frac{14}{41}$

- Proper fraction
- Improper Fraction

6. $\frac{13}{13}$

- Proper fraction
- Improper Fraction

7. $\frac{17}{27}$

- Proper fraction
- Improper Fraction

8. $\frac{10}{38}$

- Proper fraction
- Improper Fraction

9. $\frac{40}{19}$

- Proper fraction
- Improper Fraction

10. $\frac{1}{20}$

- Proper fraction
- Improper Fraction

11. $\frac{2}{15}$

- Proper fraction
- Improper Fraction

12. $\frac{33}{60}$

- Proper fraction
- Improper Fraction

13. $\frac{71}{23}$

- Proper fraction
- Improper Fraction

14. $\frac{3}{18}$

- Proper fraction
- Improper Fraction

15. $\frac{5}{5}$

- Proper fraction
- Improper Fraction

16. $\frac{16}{7}$

- Proper fraction
- Improper Fraction

ANSWERS

- 1) Proper fraction
- 2) Proper fraction
- 3) Proper fraction
- 4) Improper fraction
- 5) Proper fraction
- 6) Improper fraction
- 7) Proper fraction
- 8) Proper fraction
- 9) Improper fraction
- 10) Proper fraction
- 11) Proper fraction
- 12) Proper fraction
- 13) Improper fraction
- 14) Proper fraction
- 15) Improper fraction
- 16) Improper fraction
