

Determine if the following fractions are proper or improper.

1. $\frac{18}{25}$

- Proper fraction
- Improper Fraction

2. $\frac{117}{58}$

- Proper fraction
- Improper Fraction

3. $\frac{3}{41}$

- Proper fraction
- Improper Fraction

4. $\frac{65}{12}$

- Proper fraction
- Improper Fraction

5. $\frac{123}{211}$

- Proper fraction
- Improper Fraction

6. $\frac{6}{17}$

- Proper fraction
- Improper Fraction

7. $\frac{20}{20}$

- Proper fraction
- Improper Fraction

8. $\frac{47}{30}$

- Proper fraction
- Improper Fraction

9. $\frac{13}{9}$

- Proper fraction
- Improper Fraction

10. $\frac{5}{24}$

- Proper fraction
- Improper Fraction

11. $\frac{19}{65}$

- Proper fraction
- Improper Fraction

12. $\frac{17}{17}$

- Proper fraction
- Improper Fraction

13. $\frac{34}{35}$

- Proper fraction
- Improper Fraction

14. $\frac{16}{7}$

- Proper fraction
- Improper Fraction

15. $\frac{21}{80}$

- Proper fraction
- Improper Fraction

16. $\frac{7}{5}$

- Proper fraction
- Improper Fraction

ANSWERS

- 1) Proper fraction
- 2) Improper fraction
- 3) Proper fraction
- 4) Improper fraction
- 5) Proper fraction
- 6) Proper fraction
- 7) Improper fraction
- 8) Improper fraction
- 9) Improper fraction
- 10) Proper fraction
- 11) Proper fraction
- 12) Proper fraction
- 13) Proper fraction
- 14) Improper fraction
- 15) Proper fraction
- 16) Improper fraction
