DECIMALS

'Subtraction of Decimals'

Subtracting decimals is simple. It's just like subtracting any other numbers.

One thing you have to keep in mind is that the decimal point of the numbers to be subtracted must be in line while subtracting.

Example: Solve.

1)

$$
\begin{array}{r}
8\,0.6\,7 \\
-\ 3\,5.5\,5 \\
\hline
4\,5.1\,2 \\
\hline
\end{array}
$$

2)

$$
\begin{array}{r}
1\,9.6\,3\,2 \\
-\ 1\,3.9\,4\,0 \\
\hline
5.6\,9\,2 \\
\hline
\end{array}
$$
