

Grade 7 Vocabulary

Week 37: Worksheet 4

**Directions:** Choose the word that best completes each sentence. Write it on the line.

1) When a doctor says that an illness is \_\_\_\_\_ (*inoculated, contagious, perilous*), it means that it is \_\_\_\_\_ (*transmissible, perilous, ghastly*) to others.

2) The original Corona \_\_\_\_\_ (*antibody, partial, virus*) was easily transmitted to others and could cause major problems, but the \_\_\_\_\_ (*variant, contagious, antibody*) was just as bad if not worse.

3) When someone takes a vaccine, the body produces a(n) \_\_\_\_\_ (*wreaked, variant, antibody*) to help fight off the disease for which they were \_\_\_\_\_ (*jab, inoculated, transmissible*).

4) Her \_\_\_\_\_ (*wreaked, contemplating, ghastly*) appearance frightened the children.

5) She \_\_\_\_\_ (*grapples, perilous, virulent*) with any decision that offers more than three choices.

6) The virus was highly \_\_\_\_\_ (*speculate, contagious, virulent*) which led to many people losing their lives due to severity.

7) I do not currently wish to \_\_\_\_\_ (*speculate, grapples, wreaked*) about the outcome, at least not until I have more information.

## Answer Key
