

**Directions:** Brian had to write about a trip he took over summer vacation. Help him fill in the missing words to complete the story.

I knew I was going to get to fly for the first time in the summer, but I had no idea what to expect. My parents paid the \_\_\_\_\_ (*runway, airfare, barring*) for our trip very early to save money. The morning of the flight, we left for the \_\_\_\_\_ (*terminal, runway, aisle*) three hours early. When we arrived to the \_\_\_\_\_ (*domestic, customs, bustling*) airport, I was overwhelmed with the chaos. We followed signs to the \_\_\_\_\_ (*technical, cargo, domestic*) flights and found our flight number on a large screen that listed which gate we needed to find.

We found our gate and had to wait in line to go through a metal detector while our luggage was x-rayed. After being checked, our luggage was placed with the other \_\_\_\_\_ (*aisle, cargo, customs*) that would fly in the lower level of the plane while we sat in the \_\_\_\_\_ (*cabin, aisle, terminal*). I sat in a seat near the \_\_\_\_\_ (*cabin, aisle, terminal*) because I was nervous and did not want to look out the window. After everyone was in their seats, we all latched our seatbelts and the airplane began to taxi down the \_\_\_\_\_ (*technical, domestic, runway*). As it gathered speed I could feel the plane lift off the ground and suddenly we were in the air.

I was frightened at first, but the flight was fun and when we landed, I was in Florida. We spent time on the beach, visited an amusement park, and enjoyed seeing relatives. I do not think I would mind flying again as long as we do not hit any \_\_\_\_\_ (*screening, radar, turbulence*).

## **Answer Key**

### **Worksheet 3**

airfare

terminal

bustling

domestic

cargo

cabin

aisle

runway

turbulence
