

Directions: Spencer had to write about a business he would start if he had to in his life. Help him fill in the missing words to complete the plan.

If I had to start a business, I would open a restaurant. I know this is a risky business to choose, but I love to cook. My mother has taught me the skills I would need to be a chef or own a restaurant because that was her dream at one time. From an early age she has taught me to make amazing meals and desserts. I especially love Italian _____ (tart, sauteed, cuisine) and feel like a bit of a _____ (palatable, cuisine, connoisseur).

As for the _____ (décor, crave, upscale) in my restaurant, I would want an _____ (a la mode, bittersweet, upscale) look that was _____ (chic, fetid, palatable) and modern. I want people to come in ready to enjoy a great meal, but also experience a wonderful, authentic atmosphere. I may even add a few _____ (palatable, contemporary, amorphous) pieces of art that show off the scenery of the Italian landscape.

As for the actual menu, I would make sure every dish was highly _____ (crave, ravenous, palatable) and the desserts were the best around. I _____ (a la mode, crave, fetid) desserts all the time, so I want mine to be top of the line. The showstopper would be the _____ (bittersweet, amorphous, a la mode) _____ (cuisine, tart, fetid) filled with sweet syrup and all types of tropical fruit. It is the best way to end a meal.
